PROFILE

Enthusiastic and adaptable Support Engineer with a strong foundation in troubleshooting and customer support, seeking to leverage my technical expertise and problem-solving skills to excel as a React.js Developer. Eager to contribute to building dynamic web applications while continuing to provide exceptional user experiences.

WORK EXPERIENCE

PROJECT ENGINEER

WIPRO TECHNOLOGIES   2022-2023

- Experience with deploying operating systems across different hardware platforms and environments.
- Configuring network settings, IP addresses, DNS, and proxy settings during OS deployment
- Creating and maintaining documentation for OS build processes, troubleshooting guides, and best practices..
- Working with other teams such as IT, development, and security to ensure smooth OS deployments.
- Experience in disk partitioning and filesystem management on Linux systems.
- Setting up and configuring multiple servers or nodes to work together as a cluster.

ASPIRING DEVELOPER   2023

E-commerce website

- Developed a responsive e-commerce website prototype using React.js, showcasing products, categories, and a dynamic shopping cart.
- Implemented interactive UI components and utilized Redux for state management.

To-Do List Application

- Created a simple to-do list web application using MERN stack.
- Integrated MongoDB for storing and retrieving tasks, and used Express.js to handle API requests.

Personal Portfolio Website

- Designed and built a personal portfolio website using React.js to showcase my projects and skills.
- Utilized CSS3 for styling and created a responsive layout for optimal viewing on various devices.
